

Application No. 09/988,285

Art Unit

Supplemental Response to Office Action dated August 8, 2003

February 25, 2004

**REMARKS**

This supplemental reply is being filed to correct several typographical errors in the reply filed on February 17, 2004. These errors occurred in the second paragraph on page 2 of the remarks. The corrected information is bolded in the following paragraph, which is a corrected version of paragraph 2. The rest of the prior response is accurate. Applicants regret any inconvenience this supplemental reply may cause. Entry of this Supplemental Reply prior to action on the merits is respectfully requested.

**Corrected Paragraph 2 from Reply filed 17 February 2004**

Beginning at the bottom of page 2 of the Office Action, the Examiner has required an election to one of seven different "species" of inhibitors of BCRP (Species A-G). In response to this requirement, Applicant elects the "species" **E (GF120918)**. It is noted that this species falls within the group "A", which in fact is a "sub-genus" of acridine derivatives which includes species **E**. Thus, Applicants elect both groups A and **E**.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Gerald M. Murphy, Jr. (Reg. No. 28,977) at the telephone number
